Certificate of Training
Cetpa
Noida UP | June-2022 to Aug-2022.

To provide interns with hands-on experience in PHP development by guiding them through fundamental and advanced PHP concepts, enabling them to build and maintain dynamic web applications. The internship aims to enhance their understanding of PHP syntax, database integration, and modern development practices, while fostering skills in problem-solving, coding standards, and collaborative development.

Projects-:
Project -: <u>Rosemary & Co</u>
Rosemary is a **Magento 2**-based eCommerce store focused on selling premium drawing and painting brushes. The project involved the full development and customization of the Magento 2 platform, including the creation of custom modules and extensive theme enhancements. Key features were implemented to improve user experience, optimize store performance, and streamline business operations, ensuring a scalable and visually engaging storefront tailored for artists and creatives.

Technologies/Tools Used: Magento 2, PHP, JavaScript, jQuery, MySQL, HTML, CSS, Bootstrap.

Projects-:
Project -: <u>Abode Designs</u>
AbodeDesign is a **Magento 2**-based eCommerce store and developed and customized a Magento 2 e-commerce platform for selling kitchen taps, washroom taps, sinks, hand sprays, and kitchen accessories. The project featured a wide range of products in various materials (aluminum, copper, chrome, steel, nickel, matte black) and shapes. Implemented advanced customization for product filtering, improved user navigation, and seamless integration of multiple modules to enhance customer experience.

Technologies/Tools Used: Magento 2, PHP, JavaScript, jQuery, MySQL, HTML, CSS, Bootstrap.

Projects-:
Project -: <u>Pronteau – Abode Design Store</u>
Pronteau is a **Magento 2**-based eCommerce store developed as part of the Abode Design project, specializing in multifunctional taps and washroom solutions. The store offers features like dynamic category tab navigation, configurable products with color and finish swatches (e.g., Chrome, Brushed Steel), and automatic display of minimum variant pricing. Product variations are visible directly on listing and detail pages.
All configurations, including installation videos and safety features, are managed via Magento's attribute system to ensure a flexible and scalable backend.

Technologies/Tools Used: Magento 2, PHP, JavaScript, jQuery, MySQL, HTML, CSS, Bootstrap.

Projects-:
Project -: <u>The Goodie Box</u>
The Goodie Box is an eCommerce store built on **Shopify**, offering curated product boxes and specialty goods. The project emphasizes a secure, customer-friendly shopping experience with a strong focus on privacy and compliance with data protection laws. The store handles customer information responsibly, using secure platforms for data storage, communication, and payment processing. The website ensures GDPR compliance and provides clear, transparent privacy practices.

Technologies/Tools Used: Shopify Admin Panel, Liquid Template Engine.

Projects-:
Project -: <u>Independent Project</u>
This project is a dynamic company website developed using **CodeIgniter**, a lightweight and powerful PHP framework. The website serves as the digital front for the company, showcasing key services, company profile, team information, contact details, and other essential business-related content. It is designed to be fast, secure, SEO-friendly, and easy to maintain.
The backend is structured with the MVC (Model-View-Controller) architecture to ensure clean code separation, scalability, and efficient content management. The site also includes a secure contact form, dynamic content loading, and responsive design to ensure a seamless experience across all devices.

Technologies/Tools Used: CodeIgniter, PHP, MySQL, HTML, CSS, Bootstrap, JavaScript, jQuery, AJAX.

Projects-:
Project -: Babsi (babsi.at)
Babsi is a **Shopify** based eCommerce store developed through the migration from Shopware to Shopify. The project involved migrating products, categories, variants, and images while ensuring data accuracy and consistency. Additional work included Shopify theme customization, footer and newsletter integration, multi-level navigation setup, and resolving product image issues for variant-based products. The store delivers a smooth, user-friendly shopping experience with optimized frontend functionality.

Technologies/Tools Used: Shopify Admin Panel, Liquid Template Engine, HTML, CSS, JavaScript.
